"Since taking command, the Marines, Sailors and civilian Marines of Marine Forces Reserve have reinforced what I already knew to be true - MARFORRES is a tremendous asset to the Marine Corps. We will continue to be an integral component of the Total Force Marine Corps, ensuring the service achieves its roles and missions. MARFORRES must maintain a 'Ready-Relevant-Responsive' force capable of seamlessly augmenting and operating as a part of the Total Force to fulfill combatant commander and service rotational and emergent requirements. We will focus on readiness, core competencies and the health of the force in order to meet our commandant's desired goal to provide 'the right force, in the right place, at the right time!'"

MARINE CORPS SERVICE CAMPAIGN PLAN

MARINE CORPS STRATEGIC SERVICE GUIDANCE

CONCEPT OF OPERATIONS

This vision and strategy will guide MARFORRES over the next several years. The concept is built upon the foundation of service guidance and is congruent with the Marine Corps Service Campaign Plan. It contains three fundamental pillars. These pillars are inextricably linked and mutually supporting.

When these three pillars are employed, it allows MARFORRES to accomplish its three mission essential tasks:

1. Provide forces in support of contingency planning guidance.
2. Provide forces in support of combatant commander rotational force requirements.
3. Perform mission assurance to provide protection and availability of assets and infrastructures critical to the execution of the mission.

Commander, Marine Forces Reserve establishes force objectives, core competencies and lines of operation to guide commanders and staffs in the planning, training and execution of their activities.

FORCE OBJECTIVES

1. WIN OUR NATION'S BATTLES

MARFORRES' highest priority for resources and support will be focused on our next-to-deploy forces to set conditions for mission success. We will provide these forces with the best available training and equipment necessary.

2. MAINTAIN A READY, RELEVANT AND RESPONSIVE FORCE

We must maintain a high level of readiness at all times. We cannot go to the fight unless we can move, shoot and communicate. Our units must be able to command and control across the range of military operations in a digital and covered environment throughout the six warfighting functions. MARFORRES must be prepared to deploy combat-ready units to augment and reinforce all elements of the MAGTF.

3. ENFORCE STANDARDS, ADHERE to VALUES

MARFORRES will maintain and enforce the institution's established standards of good order and discipline within our daily routine.

CORE COMPETENCIES

Core competencies are fundamental command functions that provide direction and facilitate the allocation of resources. Application of core competencies support our ability to maintain individual and unit readiness to effectively provide ready, relevant and responsive forces in support of operational requirements. MARFORRES' core competencies include the following command functions: organize, man, train, equip and provide.

LINES OF OPERATION

This is a logical line connecting actions and decisive points to an objective.

1. FORCE READINESS

Goals: Personal readiness • Training readiness • Supply readiness • Equipment readiness • Medical/dental readiness

2. PROVIDE FORCES

Goals: Global force management • Mobilization, activation, integration and deactivation of MARFORRES forces • Authorities and funding
