

SAPR Notes:

Progress Report to President. On 20 December 2013, the President directed that the military services submit a full-scale review of their SAPR progress, due 1 December 2014. All Marines are asked to support the development of this report by completing the following surveys (if received) and participating in focus groups (if selected):

Survivor Experience Survey. This survey will be fielded from June 2014 to September 2014 to individuals who have filed reports of sexual assault within the previous 30 to 150 days.

Workplace/Gender Survey. The Workplace and Gender Relations Survey, a survey measuring the prevalence of sexual harassment/assault and the tone of the Corps regarding these crimes, will be fielded from 1 August 2014 to 15 September 2014.

Focus Groups. Focus groups will be facilitated at Camp Johnson and Camp Lejeune from July 2014 to August 2014 to collect feedback from Marines regarding their knowledge of resources and climates related to SAPR.

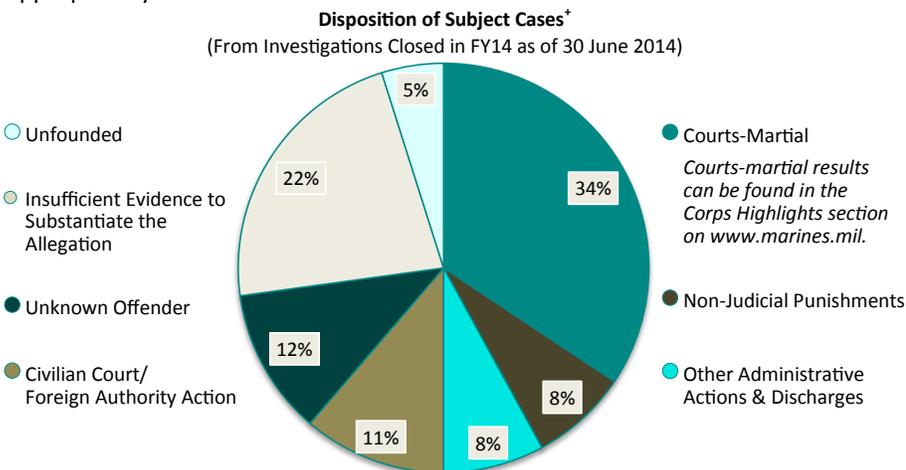

SAPR Data:

SAPR Monthly Snapshots aim to give Marines situational awareness of sexual assault in the Corps. The data is subject to change and will not be finalized or official until release of the FY14 DoD Report on Sexual Assault in the Military (expected April/May 2015).

Response & Accountability. The below data demonstrate our progress with SAPR Campaign Plan objectives relating to victim care and offender accountability:

Achieve High Competence In Holding Offenders Appropriately Accountable:

As illustrated in the pie chart below, the Marine Corps continues to hold offenders appropriately accountable.

Reported Incidents. All reports enable victim care, while unrestricted reports bridge the way to offender accountability. The data in the below table is current as of 30 June 2014.

Victim Reports	June 2014	FY14 (To Date)
Reports for Incidents Occurring While in Service	48	464
Reports for Incidents Occurring Prior to Service	21	173
Total Number of Reports	69	637
Unrestricted Reports*	33	350
Restricted Reports**	36	287
Conversions of Restricted Reports to Unrestricted	2	38

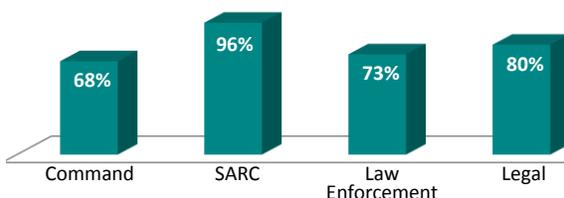

* Unrestricted report data is provided by Naval Criminal Investigative Service (NCIS).

** Restricted report data is compiled from the Defense Sexual Assault Incident Database (DSAID).

Increase Percentage Of Victims Satisfied With Quality Of Services Received:

The Marine Corps fielded an internal victim advocacy survey from November 2013 to May 2014 to gauge victim satisfaction with the supportive services they received. Overall, 88% of Marines reported that their supportive services needs were met. This survey was replaced in June 2014 by a DoD-wide Survivor Experience Survey; future Monthly Snapshots will use data from the new survey.
